

Beauty and the Beast

She looks at him
and sees a monster
He looks at her
and sees a beauty

They are alone
so they talk
they get to know each other
they are a lot alike
they have a lot in common

She sees that he is not a monster underneath
he is beautiful
he is fun
he is good

But he is not a handsome prince
he is still the beast
so she leaves with someone else
for this is real life
not a fairy tale

The Wolf
