

## **Twass the Night Before...**

Twass the night before a week before Christmas Eve  
and all through the dorms  
not a creature was stirring  
but a whole lot of people were still up  
watching TV and playing video games

No stockings were hung  
by the chimney with care  
because there was no chimney  
and everybody is going home for Christmas anyways

Exams will be done  
and people will cheer  
They'll go home for Christmas  
and come back next year

But before they go home  
to be with family  
there is a message  
to them from me  
the bitter old man  
who lives down the hall  
have fun holidays  
and Merry Christmas to all

The Wolf
